

Life Blossoms

Theme

The pictures so far spoke about the struggles and enlightenment in life, this one, titled Life Blossoms, talks about, how life blossoms after through the journeys we undertake, metaphorically expressed by the blossoming yellow rose.

Details of composition

focal length: 4.103 mm

Ground level shot

Rule of thirds

The subject was placed in a grid 3*3 such that it suffices the rule of thirds for a good composition and lies on the 1st intersection of the grid points.

Isolation of Subject

However the camera in my phone has a limited control over the aperture in the pro-mode, a depth effect was created by using the manual focus, focusing on the subject.

Technical Aspects

Aperture - f/1.7

ISO - 1600

Shutter Speed – 1/100 sec

Post Processing Workflow

1. Cropped the Image to remove unwanted area at the right.
2. The saturation has been enhanced to bring out the colours well.
3. The vibrance has been maxed to bring a really nice vibrant image of the subject.
